YOGI BEAR'S® Cartoon Capers

It is springtime in Jellystone Park and Yogi is woken from his winter sleep to discover that work has started on a secret chemical plant right in the middle of Jellystone Park. This cannot be allowed to happen!

Yogi must rush across the Park to alert Ranger Smith to the danger and stop this terrible development. On his way, Yogi will warn all of his animal friends of the danger.

Getting Started

1) Make sure the power is switched OFF.

2) Insert the Yogi Bear Game Pak as described in your SUPER NINTENDO ENTERTAINMENT SYSTEM™ manual.

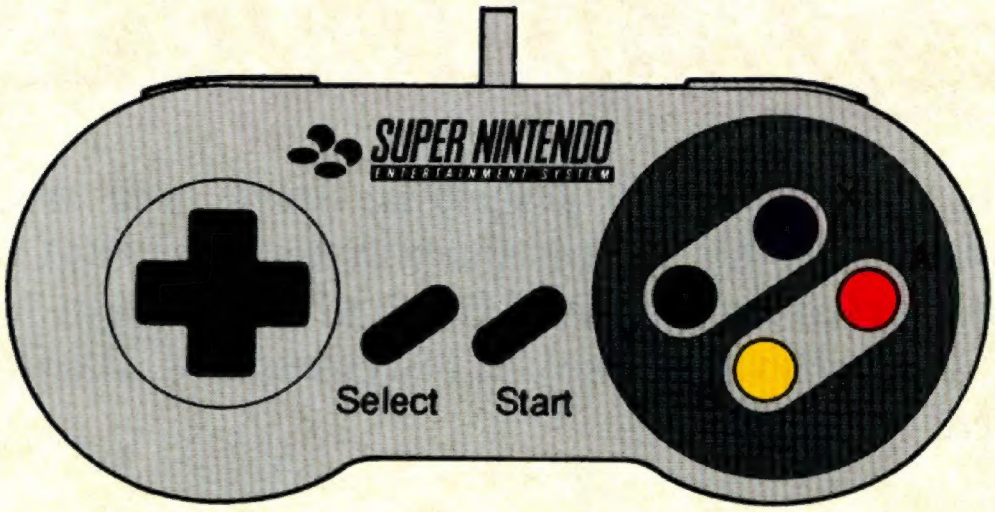
3) Turn the power switch ON.

4) After Yogi appears you will see the main title screen.

5) Press START to begin.

YOGI BEAR'S®

CONTROLS



Use the Control Pad to move Yogi left and right. Note that as you hold a direction down Yogi begins to run faster up to a maximum speed. All levels start at the left edge and Yogi must move to the right.

Press Down on the Control Pad to duck.

Press B Button to jump. The faster Yogi is running the further he can jump.

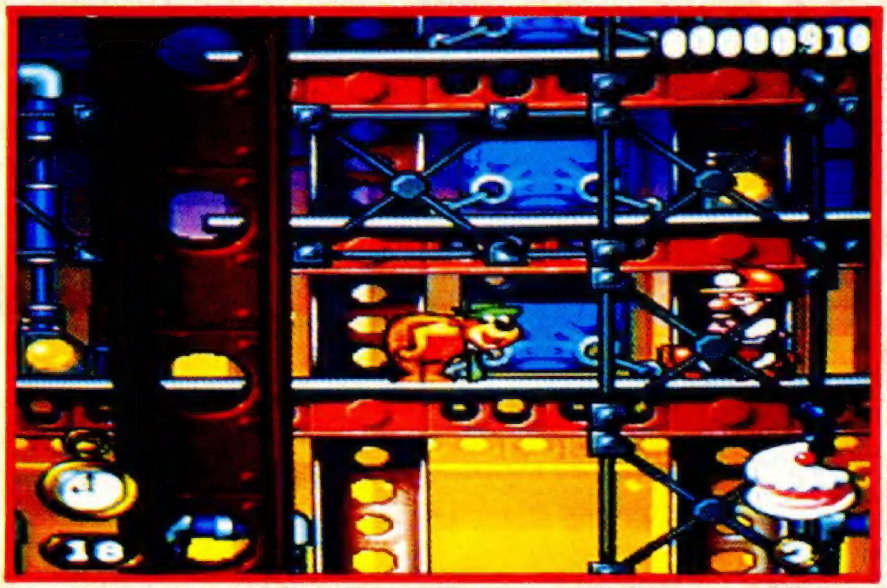
PLAYING THE GAME



When the game starts you can see a map with one red dot on it. This is the first level. As you complete each level, a trail builds up to the chemical plant construction site.

As Yogi dashes through the Park he will encounter many of his friends along the way who are unaware of the impending danger.

Yogi starts the game with 3 cakes to keep him going on his journey. If he touches one of his friends then he will then naturally share a piece of his cake with him - Yogi is more generous than the average bear! If Yogi loses a whole cake then he must start the level again. If he loses all of his cakes then he simply cannot go on and the game is over.

YOGI BEAR'S®

However, Yogi does have an alternative to sharing his cake. If he jumps on the head of his friend then he will become aware of the danger and will dash off to safety. This is the way to do it!

Note that if Yogi falls off the bottom of the screen then he loses a whole cake.

SPECIAL FEATURES

Beds - *Hidden on each level is a bonus bed where Yogi can rest his weary head. The player then enters Yogi's dream and can try to earn Yogi another attempt at his quest by collecting a piece of one of the 5 alarm clocks that make sure Yogi won't go back to sleep!*

Watches - *To insure that Yogi has enough valuable sleeping time he must collect the magical watches that litter the Park. Each watch collected will give Yogi more time in his dream - there is a total of 99 on each level.*

Picnic Baskets - *Hey hey hey! This is what Yogi loves best. Pilfer the baskets by jumping on them. When Yogi jumps on each basket it disappears, so keep jumping to follow the picnic basket trail that could lead to something special! There are 100 baskets on every level.*

YOGI BEAR'S®

Flowers - *Each level has special indicators to show where Yogi has been. As Yogi walks past a flower bud it opens up. On some of the later levels the flowers are replaced by lights or clams but in each case Yogi can see the change and work out which part of the level he has already been to. There are 99 of these indicators on every level.*

Extra Cake - *If Yogi is lucky he can find an extra piece of cake that can replenish his dwindling supplies.*

Other features - *As Yogi gets into the game, he encounters some even more exciting features. Look out for the Beaver Surfing and the Mine-Cart Riding!*

SCORING

Yogi gains points for warning the animals, collecting watches, pilfering picnic baskets and turning the level indicators on (flowers, lights, clams etc.). At the end of the level all of these scores are added up.

HINTS & TIPS

1) If you wish to practise a level you can return to any previously completed level from the map screen.

2) Use the picnic baskets to find hidden areas of each level.

3) If you warn more than one friend in one go by jumping from head to head then you will score more points - try getting all four gophers at once!

4) Collect as many watches as you can before you jump on the bed. The more you have, the easier your task will be.

5) Use the level indicators to judge where you are on the map. If they have already been set off then you have been there before.
